

Anti-Fd-GOGAT (Ferredoxin-dependent glutamate synthase, chloroplastic) antibody, rabbit polyclonal

81-025 100 µg

Storage: Ship at 4°C and store at -20°C. Do not freeze.

Immunogen: Purified recombinant maize Fd-GOGAT protein, full-size, no-tag attached

Reactivity: Fd-GOGAT including those of maize, arabidopsis, spinach, and cyanobacterium (*Synechocystis*)

Validation: Specificity has been validated by WB with recombinant full-size maize Fd-GOGAT protein

Applications:

1. Western blotting (1/2,000-1/5,000 dilution)
2. ELISA (assay dependent)

Other applications have not been tested.

Purity: IgG, purified with protein A/G mix.

Form: 2 mg/ml in PBS, 50% glycerol. Filter sterilized. No preservative or carrier protein added.

Background: Glutamine oxoglutarate aminotransferase (abbreviated as GOGAT) is an enzyme involved in synthesis of glutamate from glutamine and alpha-ketoglutarate. GOGAT has two forms in plants: ferredoxin-dependent GOGAT (Fd-GOGAT) and NADH-dependent GOGAT (NADH-GOGAT). 95% of GOGAT found in plants is the Fd-GOGAT type. Fd-GOGAT is encoded by two genes, *glu1* and *glu2* in Arabidopsis. Fd-GOGAT (both forms) is highly conserved among plants, red algae, and cyanobacteria. Ferredoxin-dependent glutamate synthase, chloroplastic (Fd-GOGAT) is involved in glutamate biosynthesis in leaf. This protein required for the reassimilation of ammonium ions generated during photorespiration. Gene name is *GlsF*.

1. Full-size recombinant maize Fd-GOGAT protein

2. Arabidopsis leaf extract, 10 µg

3. Maize leaf extract, 10 µg

Anti-Fd-GOGAT antibody was used at 1/2,500 dilution.

Second antibody (goat anti-rabbit IgG antibody HRP-conjugated, ab97051) was used at 1/10,000 dilution.

Molecular masses of maize and arabidopsis Fd-GOGAT are 175 kDa and 168 kDa, respectively..

Fig.2 Western Blot of Fd-GOGAT in Cyanobacterium, *Synechocystis* PCC 6803

Sample: Crude extract of The Fd-GOGAT antibody was used at 1/2000 dilutions

Molecular mass is 169 kDa

Reference: This antibody has been used in the following publications.
